

SPECIFICATIONS

Name	Bluetooth speaker microphone	
Model	BLU-GENIE	
Bluetooth version	Bluetooth V5.1	
Bluetooth Protocol	HSP, HFP, A2DP, AVRCP	
Frequency level	Class2	
Use of distance	10m	
Transmitted power	4dB	
Talking time	15 H	
Standby time	200 H	
Charging time	3H	
Waterproof level	IP65	
Input parameter	DC 5V 500mA	
Working temperature	-10 °C -50 °C	
Storage temperature	-25°C -60°C	

FUNCTIONS

Function	Operation	LED
Turn on	Long press power button for 3 secs while off	Blue LED flash quickly
Turn off	Long press the power button for 3 seconds	All LEDs are off
Pairing	Long press power button for 6 secs while off	Red and Blue LED flash alternately
Volume+	Hold Vol+ to increase	Blue LED flash
Volume-	Hold Vol- to decrease	Blue LED flash
Play/ pause the music	Press power button to play/pause	Blue LED flash
Play forward	Press Vol+ for next	Blue LED flash
Play backward	Press Vol- for prev	Blue LED flash
Answer the call	Press power to answer	Blue LED flash
Reject the call	Double press to reject	Blue LED flash
Hang up the call	Press power button	Blue LED flash quickly

Function	Operation	LED
Low battery	Battery low (20%): two beeps every 5 min	Red LED flash 2 times every 30seconds
Charge	When the 5V power supplier is inserted, it will reset and shut down	The red LED is on when charging, after charging finished, the LED will turn to green.

FCC Caution:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must a ccept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna.

- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to
- which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.
